

SOLAR ASSET CARE INNOVATION.™

## TESTIMONIALS

### Nice things our clients have to say about us

“ I appointed Alectris to conduct the technical due diligence for a 4.2MWp plant in Italy on the secondary market, where I needed a professional partner to quickly and completely assess this solar PV plant in the field. Alectris has proven to be the right partner, acting in a quick and accurate manner, and adding fundamental understanding related to the real value of the plant we were evaluating to acquire. Moreover Alectris gave me quick and substantial answers to questions which were normally out of their scope. ”

Wolfram Misch  
Technical Director, New Power Systems GmbH

“ Finally, after several researches FIMER has found the perfect partner for our Greek and Romanian customers. ”

Filippo Carzaniga, Managing Director, The FIRMER Group  
24MWp in Romania and 17MWp in Greece with Alectris services

“ Investors need O&M suppliers who care about their solar power plants as if they were their own. Alectris has demonstrated that level of care and ability to deliver sophisticated O&M services for the solar investor. ”

Guy Vanderhaegen, Origis Energy  
24MWp in Italy and 24MWp in USA with Alectris services

“ Alectris immediately extensively analyzed our plants deficiencies and proposed us a valuable set of activities to improve our plant performances. Alectris also installed ACTIS, its proprietary evolved Solar ERP System, shining a light on our data and allowing us easy and immediate reporting. ”

Valeria Scargetta, Managing Director, Green Hunter  
5MWp in Italy with Alectris services

“ Finally I am glad to say that I found a good and professional O&M contractor. I was extremely skeptical at the beginning due to a very bad previous experience. Alectris immediately took steps to improve the production of my PV plants following a rigorous analysis, and the benefits were notable, significant and durable. We have been working together for more than a year now and I am completely satisfied. ”

Michele Romanin Jacur, General Manager, GRU.CO S.r.l.  
Owner of 4MWp in Puglia with Alectris services
